Juan Sebastian Sotomayor

FULL-STACK WEB DEVELOPER

SUMMARY

Full-Stack developer with a great ability to learn new technologies and frameworks. I am fluent in multiple programming languages, and I love doing my job responsibly, respectfully, and efficiently. Also, Mechatronics Engineer, In which I'm capable of creating, designing, implementing, and operating machines and equipment.

EXPERIENCE

MICROVERSE, Remote.

Student Project Reviewer & Mentor (Volunteer), February 2022 - Present.

- Mentored junior web developers and provided technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- My role is to provide high-quality, consistent, and timely reviews of a student's professional skills projects in order to help them refine and perfect the materials they'll use when applying for jobs.

ZPACEWAY, Tena, Ecuador.

Front-end developer, July 2021 - June 2022.

- Solved tickets for issues on web pages for major brands.
- Learned how to use Jenkins, Jira, and Git flow.

SAMPER Fire Protection, Quito, Ecuador.

Project Analyst, May 2020 – July 2021.

- Managed to improve the company's sales by 10% by building a website.
- Coordinated processes and services due to my great communication skills.

EDUCATION

MICROVERSE, February 2022 - October 2022.

Remote Full Stack Web Development Program, Full Time.

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- I developed skills in remote pair-programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

University of the Armed Forces Ecuador, October 2013 - April 2021.

Mechatronics Engineer.

- Designed and constructed a social robot oriented to interaction with the elderly thesis.
- Won 1st place in the Industrial Programming contest using PLCs.
